Tūpuna Maunga planting update

Authors: Jordan Winiata - Kaihautū Tiaki Koiora

Purpose	To update the Tūpuna Maunga Authority on the 2021 restoration planting programme.
Recommendations	That the Tūpuna Maunga Authority: a. note the report

Restoration Planting Programme

- 1. As discussed at Hui 64 (31 May 2021), the ongoing restoration programme of planting native plants continues on Ngā Tūpuna Maunga.
- 2. Two of the key principles in the Tūpuna Maunga Integrated Management plan highlight the importance of restoring the Tūpuna Maunga with indigenous ecosystems, to reintroduce and attract indigenous and culturally appropriate species, and to nurture and enhance the living connections between the Tūpuna Maunga and other areas of indigenous biodiversity in Tāmaki Makaurau.
- 3. A total of 40,125 plants will be planted this year across 8 Tūpuna Maunga: Matukutūruru/Wiri Mountain, Maungarei/Mount Wellington, Ōhuiarangi/Pigeon Mountain, Ōtāhuhu/Mount Richmond, Ōwairaka/Te Ahi-kā-a-Rakataura/Mount Albert, Maungawhau/Mount Eden, Pukewīwī/Puketāpapa/Mount Roskill and Te Pane a Matāoho/Te Ara Pueru/Māngere Mountain between May August 2021.
- 4. These plantings add to the 65,860 plants already planted over the last 2 years (a total of 105,985 plants).
- 5. The table below indicates the proposed planting details:

Tüpuna Maunga	Total plants	Potential Attendees	Planting Day(s) (2021)
Matukutūruru/Wiri Quarry	4,505	Ngā Mana Whenua, Department of Corrections, Department of Conservation, Specialist contractors	May 26 onwards
Maungarei / Mt Wellington	2,130	Specialist contractors	7 July onwards
Ōhuiarangi / Pigeon Mountain	10,755	Ngā Mana Whenua, Local schools, local community groups, Community	18 June (Schools planting), 26 June (Community planting)
Ōtahuhu / Mt Richmond	7,695	Ngā Mana Whenua, Schools, local community groups, Sports club, Local businesses, Community, Specialist contractors	3 July and 1 August (Community planting)

Tūpuna Maunga	Total plants	Potential Attendees	Planting Day(s) (2021)
Ōwairaka / Te Ahikā a Rakataura / Mt Albert	235	Specialist contractors	13 July onwards
Te Pane a Matāoho / Te Ara Pueru / Māngere Mountain	9,171	Ngā Mana Whenua, Schools, local community groups, Sports club, Local businesses, Community, Specialist contractors	11 June (Schools planting), Saturday 12 June and 21 August (Community planting event)
Maungawhau / Mt Eden	735	Specialist contractors	17 May onwards
Puketāpapa / Pukewīwī / Mt Roskill	4,899	Ngā Mana Whenua, Local community groups, Community, Specialist contractors	24 July (Community planting)

- 6. The Maunga will be planted with the appropriate plant species within the guidance of ecosystem type, site suitability and fire retardant and archaeologically appropriate species.
- 7. For health and safety reasons, there are some Maunga with planting sites that can only be planted using specialist contractors with the right qualifications, PPE and equipment.
- 8. Community and schools planting dates were best aligned with the Maramataka. Where dates don't align with the Maramataka, this was due to the limits of contractor availability, schools availability and weekend planting dates.
- 9. The multi-year planting programme will continue in 2022 and onwards.

Community Planting Days

- 10. To this date, three community planting days were undertaken each on Te Pane a Matāoho/Te Ara Pueru/Māngere Mountain, Ōhuiarangi/Pigeon Mountain and Ōtahuhu/Mt Richmond. Roughly 80 volunteers planted on Te Pane a Matāoho/Te Ara Pueru/Māngere Mountain, 50 volunteers planted on Ōhuiarangi/Pigeon Mountain and 20 volunteers planted on Ōtahuhu/Mt Richmond.
- 11. The community planting days have been well received with groups of enthusiastic volunteers braving the cold winter mornings to plant on the Maunga.
- 12. About 50 Rongoā students from Te Wānanga o Aotearoa helped plant on Te Pane a Matāoho/Te Ara Pueru/Māngere Mountain. The interest and engagement in the planting day demonstrated by Te Wānanga o Aotearoa indicates a potential future partnership opportunity.
- 13. Two schools plantings were undertaken each on Te Pane a Matāoho/Te Ara Pueru/Māngere Mountain and Ōhuiarangi/Pigeon Mountain. In total, 46 Kahui ako (Enviroschool) students from a mix of schools including students from Māngere Bridge School, Waterlea School, Royal Oak Intermediate, Marcellin College, Te Papapa School and Onehunga High School planted on Matāoho/Te Ara Pueru/Māngere Mountain. On

Ōhuiarangi, 358 registered students from 9 different schools in the Howick ward planted nearly 5,000 plants.

14. Positive feedback was received from the teachers of these schools expressing how valuable it was for their students to have this opportunity to connect to their local Maunga through restorative planting and how much they would love the opportunity to be involved in future planting opportunities.

Next steps

15. Continue with the ongoing restoration programme

The Tūpuna Maunga Strategies are 7 key sections that outline the strategic direction with regards to education, Biodiversity, Tūpuna Maunga design, Recreation, commercial activities and monitoring. Together with the IMP, these strategies inform guide and manage the activities undertaken on the Maunga.
- 8. The following principles are taken from the Tūpuna Maunga Integrated Management Plan Design Strategy and have informed the furniture design:
 - 4.2.2 All development will respect and maintain, and where appropriate, enhance and restore the mana of the Maunga.
 - 4.2.4 Development will be restricted to that which is necessary to serve the values of the Maunga and the needs of both Mana Whenua and manuhiri (visitors) to the Maunga.
 - 4.2.6 Development materials and structures will seek to minimise impact on the Maunga and to achieve whole-of-life sustainability including a consideration of decommissioning.
 - 4.2.7 Materials, colours and scale of development will be appropriate to the context and reflect the natural and/or cultural environment of the locality.
- 9. The Strategy also notes that seats and other facilities at arrival areas or other areas of interest be designed to provide for all visitor mobility types.

- 13. Where possible natural elements such as rocks and logs will be used to complement the built furniture.
- 14. There are opportunities to incorporate artwork into the furniture itself or into the natural stone and timber seating. Where this is proposed, management will work with the Tūpuna Taonga Trust and Ngā Mana Whenua o Tāmaki Makaurau to identify designs or artists suitable for the project.
